Item description

Sounder Control Unit DIN-Rail (XP95/Discovery)

Type   Art.no.

B02868-00   59.761.14

Description

- The DIN-Rail Sounder Controller (5 Ampere) is used to control the operation of a zone of externally powered sounders and to report their status to die Fire Control Panel.

- Enables sounders to be operated continuously or be pulsed (1 second on, 1 second off)

- Synchronisation in pulsed operation possible

- Two visible LEDs (1x red for sounder function, 1x yellow whenever a fault has been detected)

- External power supply (12-35 V DC) and sounder-control output monitored

- Short circuit isolator integrated

- Protection class IP20

- **Tested according to EN 54-18, EN 50155, EN 50121-3, EN 60068, EN 61373**

Technical data:

Operating voltage:	17 – 28 V
Quiescent current:	1,9 mA
Temperature range:	-25°C to +70°C
Relative humidity:	max. 95%
Mounting:	on a standard DIN rail
Colour:	green
Dimensions (LxBxT):	110 x 107 x 20 mm
Weight:	95 g
